Offices

12.000
Employees

Arts and culture

Arup has a strong tradition in designing arts buildings, and the skills to reinvent them for the future.

Aviation

Aviation clients come to Arup for holistic solutions that balance complex challenges.

Commercial property

We evolve with the changing aspirations and challenges of developers, owners and occupants.

Maritime

We bring fresh thinking to port development and waterfront projects to promote balanced shoreline solutions.

Mining

To the complex demands of mining operations, we bring holistic, locally appropriate solutions.

Rail

Considered rail solutions can ease transport challenges for today and the future.

Education

By understanding purpose, performance and future use, we bring enduring value to educational environments.

Energy

Arup brings depth of experience to energy challenges worldwide.

Government

We help the public sector to build communities that will thrive into the future.

Residential

We create desirable places to live, while seeking smarter solutions for all.

Resources and waste

Arup offers a wide range of services for all aspects of resource and waste management.

Retail

We understand the art and science of creating a better retail experience.

Healthcare

We create caring environments that are models for today, and ready for tomorrow.

Highways

Wherever new or better roads help communities prosper, we can make original solutions possible.

Hotels and leisure

We bring focus to people, place and performance in hotel developments worldwide.

Science and industry

We help industry, science and technology providers to evolve with confidence.

Sport

To inspire sport's best, Arup helps to create high-performance venues.

Water

Arup takes an integrated approach to deliver solutions for complex water management problems.

YOUR DEFINITION OF INNOVATION:
...

?

BETTER MORE FREE TIME

STAND IN FUTURE & LOOK BACK

NEW TOOLS TO OLD PROBLEMS

BIG DIFFERENTIATION

CHANGE BEHAVIOUR

CULTURE

PLATFORMS

PEOPLE

METHODS

• HARD WORK

MYTHS

• ACCIDENTAL OBSERVANCE
• RIGHT PLACE RIGHT TIME

NOT MUCH SERENDIPITY

EXCEPT WHERE THERE IS CROSS OVER OF DISCIPLINE

INCLUDE OUTSIDE COMPANIES

EXPERIENCE

TIME WITH THE 'TROOPS'

STIMULATING

MULTI SENSORY

HOW TO CAPTURE IDEAS

INNOVATION AT ARUP

CURIOSITY + NECESSITY

BRAINSTORMING

VERY ORGANIZED

HAPPENS OFTEN

BUT NOT OFTEN ENOUGH - WHEN BUSY

IN OUR CULTURE TO BRING PEOPLE AROUND A TABLE

ENVIRONMENT

CAN HAPPEN WITHOUT MEETING

ENABLER OF CREATIVITY

SPACE TO TALK

ARUP

Willingness for a 0-risk factor

Lack of homogeneity amongst countries

Innovation is not a shared process with the approval authorities!

©ARUP

ARUP

Contrasting standards lead to compromises in innovation

Standards in some cases are lacking or fragmented

Competing interests could lead to stifling innovation

What is Arup?

I&S in our projects

I&S in our products

I&S in our future

?

Standardization can be a mean to plan and structure innovation

Standardization enables innovation to be exploited by:

- Unlocking the business potential
 - Accelerating the process
- Increasing the probability of success
